SUMMARY

I am a 8th semester student at Multimedia Nusantara University who has enthusiasm and high motivation in this field. Skilled in repairing hardware and software as well as installing operating systems on computers, designing applications, and writing code in the programming languages HTML, CSS, VueJS, and Tailwind for my projects. I am skilled in using Figma and Photoshop to make application prototypes. I'm looking for opportunities to develop my skills in the field of Front End Developer and or IT Support in a full time work program.
